

FREDERICK W. HAMMETT,

ATTORNEY-AT-LAW,

No. 508 Walnut Street,

Philadelphia July 8th 1887

Dear Mr. Fox

A day or two since I received a memo. from the Mint saying "only 7500 lbs are needed not 75000 lbs as misquoted at work-
ings and it must be Fused
Anhydrous Borax. The common
Fused Borax will not do; the award
is not yet made". In view of the
fact that the proposal may ask for
Fused Borax will you kindly
hold the award of that contract
in abeyance until we can hear
from our California correspond-
ent see if we can give you
the Fused Anhydrous Borax at
the same price as we bid for
the common Fused Borax.
Awaiting your reply I am

Very truly
F. W. Hammatt
Pres. Activa Oil Co.

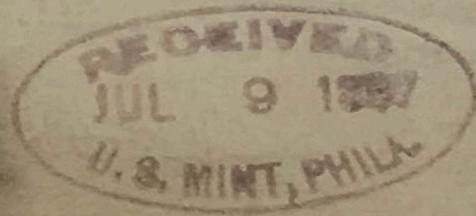

890

Phila. Pa.

July 8. 1887.

F. W. Hammett.

Asks that no answer
be made for Gusev
Boray until they can
hear from California.

[Abstract:] Asks that no answer be made for Fused Borax until they can hear from California.

Frederick W. Hammett,
Attorney-at-Law,
Philadelphia,
July 8, 1887

Dear Mr. Fox,

A day or two since received a memo from the Mint saying "only 7500 lbs are needed not 75000 lbs as misprinted at Washington and it must be Fused Anhydrous Borax. The common Fused Borax will not do; the award is not yet made". In view of the fact that the proposal only acted for Fused Borax will you kindly hold the award of that contract in absence until we can hear from our California correspondent & see if we can give you the Fused Anhydrous Borax at the same price as we bid for the common Fused Borax. Awaiting your reply I am

Very Truly
F.W. Hammett
Pres. Aetna Oil Co.
